2. The following is an examiner's statement of reasons for allowance: the prior art does not anticipate nor render obviousness as to a first portion being radiated with a first plurality of beamlets having first melt areas and a second beamlet irradiating a portion having melt portions wherein the first and second areas are intermingled when they are resolidified.
3. Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

Specification

4. The title of the invention is not descriptive. A new title is required that is clearly indicative of the invention to which the claims are directed.
